Python Built-in Functions – Easy Reference Guide

Basic & Utility

1. print()
2. type()
3. id()
4. help()

Numeric

1. abs()
2. round()
3. min()
4. max()
5. sum()

Sequence & Collection

1. len()
2. sorted()
3. list()
4. tuple()
5. set()
6. dict()

Iteration & Logic

1. range()
2. enumerate()
3. zip()
4. all()
5. any()

Conversion

1. int()
2. float()
3. str()
4. bool()

Math & Power

1. pow()
2. divmod()

Input/Output

1. input()

These built-in functions are commonly used in Python, Data Science, and AI/ML workflows.
